1.6. Use of cookies

Cookies are small text files that are stored on your hard disk assigned to the browser you are using and through which certain information flows to the entity responsible for the cookie (in this case us). Cookies cannot run programs or transfer viruses to your computer. They are used to make the website more user-friendly and effective overall and to be able to identify you on subsequent visits.

This website may use the following types of cookies, the scope and function of which are explained below:

- IP address
- Transient cookies
- Persistent cookies
- Third-party cookies
- HTML5 storage objects

Transient cookies are automatically deleted when you close the browser. These include session cookies in particular. These store a so-called session ID, with which various requests from your browser can be assigned to the shared session. This allows your computer to be recognized when you return to our website. The session cookies are deleted when you log out or close the browser.

Persistent cookies are automatically deleted after a specified period, which may vary depending on the cookie. You can delete the cookies in the security settings of your browser at any time.

You can configure your browser settings according to your wishes and, for example, refuse to accept third-party cookies or all cookies. We would like to point out that you may then not be able to use all the functions of this website.

HTML5 storage objects store the required data independently of the browser you are using and have no automatic expiration date. If you do not want flash cookies to be processed, you must install an appropriate add-on, e.g. "Better Privacy" for Mozilla Firefox (<https://addons.mozilla.org/de/firefox/addon/betterprivacy/>) or the Adobe Flash Killer cookie for Google Chrome. You can prevent the use of HTML5 storage objects by setting your browser to private mode. We also recommend that you regularly delete your cookies and browser history manually.

1.7. Use of web analysis tools

1.7.1. Use of Google Analytics

This website uses Google Analytics, a web analytics service provided by Google Inc. ("Google"). Google Analytics uses "cookies", which are text files placed on your computer, to analyze how you use the site. The information generated by the cookie about your use of this website is usually transferred to a Google server in the USA and stored there. However, if IP anonymization is activated on this website, your IP address will be truncated by Google beforehand within member states of the European Union or in other contracting states of the Agreement on the European Economic Area. Only in exceptional cases will the full IP address be transmitted to a Google server in the USA and truncated there. Google will use this information on behalf of the operator of this website for the purpose of evaluating your use of the website, compiling reports on website activity and providing other services relating to website activity and internet usage to the website operator.

The IP address transmitted by your browser as part of Google Analytics will not be combined with other Google data.

You may refuse the use of cookies by selecting the appropriate settings on your browser, however please note that if you do this you may not be able to use the full functionality of this website. You can also prevent

Google from collecting the data generated by the cookie and relating to your use of the website (including your IP address) and from processing this data by downloading and installing the browser plug-in available at the following link: <http://tools.google.com/dlpage/gaoptout?hl=de>.

This website uses Google Analytics with the extension “_anonymizeIp()”. This means that IP addresses are further processed in abbreviated form, so that they cannot be traced back to individuals. Insofar as the data collected about you can be linked to you personally, this is therefore immediately excluded and the personal data is immediately deleted.

We use Google Analytics to analyze and regularly improve the use of our website. We can use the statistics obtained to improve our offer and make it more interesting for you as a user. For the exceptional cases in which personal data is transferred to the USA, Google has submitted to the EU-US Privacy Shield, <https://www.privacyshield.gov/EU-US-Framework>. The legal basis for the use of Google Analytics is Art. 6 (1) point (f) GDPR.

The so-called two-click solution is used. This means that when you visit our website, no personal data is initially passed on to the providers of the plug-ins. The provider of the plug-in can be recognized by the marking on the box above its initial letter or the logo. This gives you the option of communicating directly with the provider of the plug-in via the button.

The plug-in provider only receives the information that the corresponding website of our online offering has been accessed if you click and thereby activate the marked field. In the case of Facebook and Xing, according to the respective providers in Germany, the IP address is anonymized immediately after collection. By activating the plug-in, your personal data is therefore transmitted to the respective plug-in provider and stored there (in the case of US providers in the USA).

As the plug-in provider collects data via cookies in particular, we recommend that you delete all cookies via your browser's security settings before clicking on the grayed-out box.

The plug-in provider stores the data collected as usage profiles and uses them for the purposes of advertising, market research and/or the needs-based design of its website. Such an evaluation is carried out in particular (even for users who are not logged in) to display needs-based advertising and to inform other users of the social network about your activities on our website. You have the right to object to the creation of these user profiles, whereby you must contact the respective plug-in provider to exercise this right. Via the plug-ins, we offer you the opportunity to interact with social networks and other users so that we can improve our offer and make it more interesting for you as a user. The legal basis for the use of the plug-ins is Art. 6 (1) point (f) GDPR.

Data is passed on regardless of whether you have an account with the plug-in provider and are logged in there. If you are logged in with the plug-in provider, your data collected by us will be assigned directly to your existing account with the plug-in provider. If you click the activated button and, for example, link to the page, the plug-in provider also saves this information in your user account and shares it publicly with your contacts.

We recommend that you log out regularly after using a social network, but especially before activating the button, as this will prevent you from being assigned to your profile with the plug-in provider.

Further information on the purpose and scope of data collection and its processing by the plug-in provider can be found in the data protection declarations of these providers provided below. There you will also receive further information on your rights in this regard and setting options to protect your privacy.

These are all integrated in "extended data protection mode", i.e. no data about you as a user is transferred to YouTube if you do not play the videos. Only when you play the videos will the data referred to in paragraph 2 be transmitted. We have no influence over this data transmission.

When you visit the website, YouTube receives the information that you have accessed the corresponding subpage of our website. In addition, the data mentioned in paragraph 3 of this declaration will be transmitted. This takes place regardless of whether YouTube provides a user account through which you are logged in or whether no user account exists.

If you are logged in to Google, your data will be assigned directly to your account. If you do not wish to be associated with your profile on YouTube, you must log out before activating the button. YouTube stores your data as usage profiles and uses them for the purposes of advertising, market research and/or the needs-based design of its website. Such an evaluation is carried out in particular (even for users who are not logged in) to provide needs-based advertising and to inform other users of the social network about your activities on our website.

You have the right to object to the creation of these user profiles, whereby you must contact YouTube to exercise this right.

Further information on the purpose and scope of data collection and its processing by YouTube can be found in the privacy policy. There you will also find further information about your rights and settings options to protect your privacy: <https://www.google.de/intl/de/policies/privacy>. Google also processes your personal data in the USA and has an AV in accordance with standard contractual clauses with remoso (remoso is a brand of AVA GmbH).

1.7.4. Integration of Google Maps

We use Google Maps on this website. This allows us to show you interactive maps directly on the website and enables you to use the map function conveniently.

When you visit the website, Google receives the information that you have accessed the corresponding subpage of our website. In addition, the data mentioned in paragraph 3 of this declaration will be transmitted.
